

Application for a SoHT travel grant for a presentation in the scientific program of the 56th TIAFT conference in Ghent, Belgium (co-hosted by SoHT and BLT)

Dear young SoHT member,

The SoHT supports young researchers with a travel grant allowing them to present their own scientific work at SoHT-meetings. These scientific meetings offer young scientists a unique opportunity to discuss their results with the main representatives of our research field and to establish contacts for further scientific cooperation.

To apply, complete the application form ([Klick here](#)) and mail it to the secretary of SoHT (drgailcooper@hotmail.com). The maximal grant is 1000 Euro, depending on total travel costs including congress fee.

The board's decision is final. When in doubt, the Management Board of the SoHT will decide.

Please note that only two scholarships per institution can be granted. Therefore please decide on your applicants internally first before submitting an application. If more than two applications are made from an institution, all will be returned to the supervising tutor.

If the scholarship is granted by decision of the SoHT Board, please submit all relevant receipts (originals, tickets, printouts) to the Treasurer by email to michael.uhl@polizei.bayern.de not later than two weeks after the end of the conference. Accepted receipts are: effective travel costs and congress fee. The Treasurer will arrange a one-off payment of maximal 1000 (one thousand) Euros.
